

ALAPATI VIKAS

2300033507cse@gmail.com | 7288808182 | Vijayawada, India

PROFILE

Computer Science and Engineering student skilled in Python, SQL, Object-Oriented Programming, Data Structures, and DBMS, with hands-on experience in full-stack application development. Worked with technologies including React, Node.js, Express, Spring Boot, and MySQL, with a strong understanding of software development and debugging. Seeking an entry-level software development role where I can apply my technical and problem-solving skills to build reliable and scalable applications.

EDUCATION

B.Tech, Computer Science Engineering, KL University 2023 – 2027 | Vaddeswaram
CGPA: 9.11

Intermediate, Sarada Jr College 2021 – 2023 | Moghalraja Puram, Vijayawada
CGPA: 84%

TECHNICAL SKILLS

Programming C, Python, Data Structures & Algorithms	Databases DBMS Fundamentals, SQL (Queries, Joins, Normalization)	Web & Cloud JavaScript, React.js, Node.js, Spring Boot, REST APIs, Docker
---	--	---

ACHIEVEMENTS & CERTIFICATIONS

Certified Advanced Automation Professional 06/2026
Automation Anywhere

Lingual Certification

Microsoft Certified: Azure Fundamentals 12/08/2026
Earned August 12, 2026

PROJECTS

AI-Shift Nursing Off Project, React JS, Axios
Built a full-stack shift management application, applying OOP design principles and integrating REST APIs with Axios for data-driven functionality.

NetworkIQ – AI Inventory Optimization Platform, React JS, Spring Boot, PostgreSQL, Python, FastAPI, ML, LangGraph, Docker

- Developed an AI-powered inventory platform that forecasts SKU demand and identifies shortages, excess stock, and transfer opportunities using machine learning and multi-agent optimization.
- Built integrated full-stack services with REST APIs, PostgreSQL, JWT-based access control, CSV ingestion, and Docker Compose for containerized deployment.

INTERESTS

• Coding • Listening to Music • Playing Games

SOFT SKILLS

• Presentation Skills • Adaptability & Quick Learning
• Time Management • Team Collaboration
